

## **Internship Opportunities for Ocean Connectors Graduates**

Loved participating in Ocean Connectors but don't know where to go next? Here are a few internship ideas with local environmental organizations, where you can continue to study nature, help wildlife, and teach others about protecting our planet. For more information about volunteer opportunities, don't forget to sign up for our e-[newsletter](#)!

### **[Birch Aquarium at Scripps](#)**

Exciting summer internships in ocean science education are available for high school and college students at this incredible aquarium in La Jolla, California. Interns learn firsthand about science communication, provide engaging experiences for guests of all ages, study animal care, and build new friendships.

### **[I Love A Clean San Diego](#)**

If you are looking to learn more about environmental issues impacting San Diego County, build your resume, and give back to your community, apply to be an I Love A Clean San Diego (ILACSD) volunteer intern! ILACSD recruits interns each semester to shadow their staff at cleanups, community events, and to assist with a variety of office and marketing tasks.

### **[Living Coast Discovery Center](#)**

Internship opportunities include caring for and feeding animals, cleaning and maintaining exhibits, animal observations, group presentations, grounds maintenance, education projects, and much more. Continue the learning process you began at the Living Coast in 4<sup>th</sup> grade by getting involved with their team of experts, located in Chula Vista, California.

### **[Ocean Connectors](#)**

Want to keep working with Ocean Connectors in National City, California? We offer a limited number of unpaid internships. Most of our internships take place during school hours, with occasional weekend opportunities. Ocean Connectors interns must be at least 16 years old, complete a background check, and provide proof of a recent TB test.

### **[Ocean Discovery Institute](#)**

Ongoing internship opportunities available in San Diego, California in education, habitat restoration, and office and administrative support. Most internships with Ocean Discovery Institute are targeted towards college graduates and post-college level young adults looking to build their resumes in the field of ocean science.

### **[San Diego CoastKeeper](#)**

Multiple internships available in environmental law, outreach, public relations, social media, advocacy, environmental education, and more. All internships with CoastKeeper require a minimum of 10 hours per week.

### **[San Diego Zoo](#)**

Students looking for careers in conservation science and wildlife management can learn about wildlife, genetics, veterinary medicine, animal behaviors, and more from zoology experts at the world-famous San Diego Zoo.
